

**ALL INDUSTRIAL AND ACADEMIC HIGHER EDUCATION RESEARCH FOR THE
PEOPLE-A COVID-2019 PANDEMIC EXPOSURE.**

P.Nallamuthu,

Assistant Professor

School of Education,

Vels Institute of Science Technology and Advanced Studies, Chennai 600117- India

Abstract

Research is generally refers to a search for new knowledge i.e., the exploration for new realities in any part of information for the betterment of the society. Through innovative research we can change our own world without harming any living things in this universe. But COVID- 2019 teaching...us something different from our own regular mode of planning and execution of researches. At this juncture we could understand the last Easter Sunday (Vatican news-12.04.2020) was like few others in modern history, **His Holiness Pope Francis** said Mass under the soaring ceilings of **St. Peter's Basilica**, which was virtually empty of the faithful. Outside, St. Peter's Square, too, was bereft of the usual throngs of worshipers, who were forced to stay away because of the coronavirus pandemic and also 23rd March 2020 In an appeal issued on Monday by **UN Secretary-General Antonio Guterres** urged warring parties across the world to lay down their weapons in support of the bigger battle against COVID-19: the common enemy that is now threatening all of humankind. Further the UN chief pointed out, COVID-19 does not care about nationality or ethnicity, or other differences between people, and "attacks all, relentlessly", including during wartime. Therefore, from here after, we need to select the research problem and its perspectives for the sustainable development of "**ALL.**" Hence this article will enable us to evaluate the suitable ways and means to select, construct, and adopt the procedures, objectives in all forms of researches in context with CORONA-2019.

Key Words: His Holiness Pope Francis, Rev.Fr.Dr.Maria Arul Raja S.J., UN Secretary-General Antonio Guterres, Covid-2020.Social isolation and Social exclusion.

Introduction

This study looks out the real ways by which the leaders, academicians, educators, scientists and their noble services, remarkable guidance will help us to set and to formulate the new

paradigm ...in future researches.

Through innovative research we can change our own world without harming any living things in this universe. Research methodology can be defined as the structure or plan of enquiry formulated in order to collect new answers to the designed research questions on human advancements. The research design constitutes the overall programme of the research process. A good research plan or design clearly describes the techniques and methods used for selecting the samples and collecting data, data preparation, data interpretation, descriptive statistics sampling and statistical inference, testing of hypothesis and other aspects that are essential for conducting a good research. While accepting the World Commission's Declaration on Environment and Development (1987) and Millennium Development Goals (2000) as an integral part of its agenda it added some new dimension to the concept of sustainability like respect for human rights, democracy and Green Economy .It emphasizes the broad alliance of public, government ,civil society and educators, NGO's, private sectors, and "ALL" should working together to address ,achieve ,attain the goals of sustainable development through research and its social progresses. (*Prof.P.C Trivedi., 2013*).Humanity needs leadership and solidarity to defeat the coronavirus then only together we can solve all the unsolved emerging issues in the present world.

Objectives on the Present Study:

1. To Assess the need and Importance of Research for the Betterment of The People
2. To explore the some of the Renowned Academic, Autonomous Research Intuitions Former/Present Principal Investigators, Heads of the Research Schools, Social Scientists innovative plan of action and their research contributions to "ALL".
3. To assess the need and importance of some of the research dimensions and areas need to be addressed immediately.

Research design of the present study:

The study was conducted with the help of available secondary sources of existing literature through historical, analytical approaches. Method of design consists, analysis concepts and arguments, synthesize ideas and evidence drawn from different sources with prior permission of concern. Then formulated well planned construct consistent and well-supported arguments, discussion were made an issue in a balanced way. The post- test evaluation also made to collect the ideas and arguments of others with transparency and to also create suitable chances to make

judgments and express opinion.

Educational Implications:

Research ethics provides some important guidelines for the responsible conduct of research, further the responsible mentoring, is very adequate for the every research units then only mentor/research guide will help to educate, advise their research unit scholars by, increasing their welfare and create suitable environment to make their own decisions in all walks of their research journey without any barriers through restricted regulations from the founding agency, approval authorities, autonomous bodies, corporate governances and their influences and also some selected contemporary forms of social disadvantages, discriminations of gender, race, cast, community, religion, geographical ,ability based differences or other factors that are not related to their scientific competence and integrity along with the social responsibilities and non-discriminations are the good quality of modern research. Such kind of researches only strive to promote social goodness ,social equality, equal opportunities ,affordability, availability and so on to prevent or mitigate social harms , and advocacy. Further, here we can see some of the notable personalities and their contributions are as followed,

1. The French highest civilian ‘Legion of Honour’ awardee Rev.Fr Pierre Ceyrac SJ, was always remembered for his **‘thousand well operation** ‘that will helped Ramanathapuram district to become greenery .In the world of division and discrimination, poverty and related diseases, hate and fight, war and health, the message of Fr.Pierre Ceyrac remains meaningful i.e., **‘If all have to be happy, all have to stay in love’**. Orphanages and other social service organizations ,community colleges established by Fr Pierre Ceyrac still serving as **CIREHU-** Flying wings to ALL under the eminent guidance of **Jesuits** .

2. Rev. Dr.Peter Arockiadoss SJ.,Former superior and supervisor of Doctoral Studies at Vidyajyoti College's **Arul kadal** as a great visionary, he contributed more for the underprivileged students still his last breath Rev.Dr.Peter Arockiadoss SJ., called by people as **‘NALAVAADI’** means **‘person seeking people’s goodness’** Rev. Dr .P. Arockiadoss SJ.,still lives in people’s mind because of his many more innovative, social development noble services .His famous quote is very important to all the new researchers i.e.,**“ we have to do research for the people not of the people”**-i.e., any research must be for the betterment of the

people not just of the people,. Is guiding still for 'ALL'.

3. Rev.Fr.Jesu Irudhayam OFM. , Founder of **Street Elbins Education Society-SEEDS** established by himself for the orphan, street and working children. **Nesakkaram- NGO** established by himself is continuing its noble services without any kind of discrimination for all the needy and deserved in Chennai slum children, youth boys and girls, women... He emphasised and motivated younger minds by his famous quote i.e., **“If you treat everyone as your sisters and brothers in the world then there is no darkness in your life”** While we are conducting any kind of research ,we should keep this quote in our mind..... Then we need not worry about the implications of the research.

4. Rev.Dr. A. Maria Arul Raja, S.J., Director of Studies in the Theology at Vidyajyoti College's ,Arul Kadal Centre and supervisor of Doctoral Studies at the Institute of Dialogue with Cultures and Religions at Loyola College in Chennai...He is always play a dynamic role through his affirmative actions ..According to his vision, the sacred project of humanizing the Dalits has to become the collective responsibility of all people of good will irrespective of one's creed, code, cult, culture, or caste,” is the emergency at this juncture. The September 11, 2012 at the College of the Holy Cross Fr. Raja delivered lecture to uses the experience of the exclusion of the Dalit, the lowest caste of people in India, to look at ways of building communities that break down discriminatory hierarchies. **Rev.Dr.A.Maria Arul Raja, S.J.,** is always contributing through his countless remarkable, affirmative action plans for the Dalits and marginalized people. This will help us to avoid permanent social segregation and social exclusion on the basis of caste and other sorts of discrimination in the world

5.. Dr Sultan Ahmed Ismail, Former Vice Principal and HOD Biotech, The New College, Chennai, was unanimously nominated as **Vice President of the Preparatory Committee of the World Earthworm Industry Federation** on 28TH JUNE 2018.On 29thJune he was Honoured with a Special Award for Outstanding contribution to Earthworm Industry in the first world International Earthworm Industry Forum held at Shanghai China (24-29June 2018). Dr Sultan Ahmed Ismail's lifework is centred on the techniques for recycling biodegradable waste into fertilizer using local varieties of earthworms and soil bio-remediation. Dr Ismail, MD of Eco science Research Foundation, Chennai, has conducted extensive awareness sessions especially among school children to promote vermicomposting and environmental awareness. For him, the two are inseparable. Dr Sultan Ahmed Ismail's is always friend to the farmer and great visionary, nation builder, pioneer in the field of people's oriented research.

6. Rev.Dr.K.Amal SJ. , Occupied and Served as Superior, Adviser, Director, Rector for AICUF, Loyola College, Arulanandhar College, Indian Social Institute, IMCS, Asia-Pacific Chapter, Human Rights Desk and Training Unit. His long years of tenure, all the organization and movement witnessed many millstones...Wherever he was transferred, posted he himself played vital role there. Eradicating social evils through empowering youth power is his key factor, particularly eradicating casteism and other man made maladies from the society is always his noble agenda. He is always admirable head of the institution, lovable, guiding spirit great leader to many underprivileged youths in India and abroad... Marching with marginalized is the great motto which was emphasized, propagated among youths in his tenure at AICUF national secretariat, Chennai along with **Rev.Dr.V.Hendry Jerome SJ.,**

7. Rev. Fr. L. Yesumarian S.J., Fr is the lighting lamp to many voiceless in south India through his –DHRC and its legal services: Fr, frequently conducting of cases in the court of law for the Dalits and the poor, especially for women. Offering free legal advice and counseling to these target groups. Conducting legal rights awareness training programmes for the Dalits and women. Visiting the victims of violence and caste atrocities in rural areas and many more social development programmes through other institutions established by him. Through his **People’s Movement**, many Dalits and social movements are getting free services .Fr continuously serving as organizer for unorganized workers, especially the Dalits. Under rural capacity building Fr conducting training programmes for women, students, youths, leaders and cadres. And also through Jyothiba Workers Union, works for the rights and welfare of the marginalized workers .Fr undertakes emergency relief works also during tsunami, flood and drought. During tsunami it Fr through his institution reached out to 40,000 families and construction of houses also were undertaken. So far **Ayya L.Yesumarian.** (Unorganized workers and common people are always calling him instead of ‘Fr’ as AYYA) have constructed 150 houses in three villages and another 90 houses are under construction in another village.

8 Rev.Fr. Dr. Sahaya Philominraj who is the ‘daystar’of many needy and deserved .Currently he is serving as legal advisor to the Arunthathiyur Human Rights Forum and also he is striving hard to eradicate manual scavenging from Tamil Nadu .Manual Scavenging act which was passed in Indian parliament in the year 2013 was panned this manual scavenging...But even after a long period of independence still this manual scavenging was allowed in India without introducing any modern advancement methods in this field. And also Government appointing staffs without any proper steps to stop this adverse /hazardous manual scavenging job from India...

Bezwada Wilson the founder and National Convener of the Safai Karmachari Andolan (SKA) an Indian human rights organization that has been campaigning for the eradication of manual scavenging .As coordinator of the Madurai Legal Services Coordination Committee (MLSCC) with lot of painful and constant hard work of Rev. Dr. S.Philominraj SJ., and his some affirmative actions for the eradications of this social evil... many underprivileged people are recognizing their humanness. Rev.Dr.Fr Philo and his team is a motivating driving force to the many social workers and humanitarians who are actively involving themselves in the nation building noble services.

Similarly we have to salute the following great leaders, scientists and their incredible **radical thinking** and **rational research** contributions for the betterment of the universe without any kind of social limitations. They are as follows,

DR B.R.AMBEDKAR, CARL MARX, ABRAHAM LINCOLN, Rev. MARTIN LUTHER KING, ALEXANDER GRAHAM BELL, ALEXANDER FLEMING, LOUIS PASTEUR, MADAM MARIE CURIE.

Some emergency areas of research are listed below .They are need to address immediately

1. “A Comparative Study on Eradicating Religious and Communal Violence among Indian and SAARC Countries Youths by Promoting Values through Course Based Social Reconstruction Short Term Projects”
2. “A Study on Identifying Natural Methods and New Technological Advancement to Improve the Agricultural Growth Rate for the Betterment of Farmers in India.”
3. “A Study on New Marketing Strategies for the Agricultural Products to Improve the Economy and Life Style of Indian Farmers”
4. “A Comparative Study On Problems of Globalization And Privatization In The Field Of Agriculture, Education And Health Sectors In India And Some Of The Selected Developing Countries”
5. “A Evaluative Study On Implementing New Strategy To Promote Life Surety And Security Schemes For Orphan By The Educators, Industrialists, Corporates, NGOs, Governments And Public Through Their Community Development Services In India And Abroad”

6. “A Study on Motivational Strategies To Promote National Patriotism Among NSS, YRC and All Other College/University /Research Educational Institute Students Service Wings In India By Conducting Village Rural Reconstruction Projects Through Proper Channel”.
7. “A Comparative Study to Improve Socio, Economic and Educational Development Measures among Schedule Tribe People and Transgender in India”.
8. “A Study on Remedial Measures to Eliminate the Caste Name and Its Social Violence from the People of India Including Past and Present Indian Parliament Leaders”

The above research problems may listed to highlight the need and importance of the research areas should be helpful to eliminate or eradicate the all kinds of man-made maladies without any barriers and not to simply keep under one among all in any boxes.

Conclusion:

Pope Francis observes that many time communication is only “virtual”. “Instead we should discover a new closeness”, he says. “Real relationships made of attentiveness and patience”. The Pope describes how some families eat together at home in silence – not because they are listening to one another, but because “the parents are watching television while they eat, and their children are on their mobile phones”. Pope Francis describes this kind of family as “monks isolated from one another”. There is no communication here, he says. “Instead, listening to one another is important because we understand one another's needs, struggles and desires”. “There is a language made of concrete gestures that must be safeguarded”, continues the Pope. The suffering people are enduring at this time should make us open to this language. Finally, Pope Francis invites everyone to hope — even those who do not believe. “We are all children of God, and He watches over us”, says the Pope. “Even those who have not yet met God, those who do not have the gift of faith, can find their way through the good things that they believe in. They can find strength in their love for their children, their family, their brothers and sisters. Someone might say: ‘I cannot pray because I do not believe’. But at the same time”, concludes Pope Francis, “We can believe in the love of the people we have around us, and there we can find hope” and also he insisted that the indifference, self-centeredness, division and forgetfulness are not words we want to hear at this time.

So everyone in the world should unite together and eliminate all kinds of social discriminations, biased attitude, bribe, violence, harassment, dominance in any forms through suitable researches .Particularly Government and all the research bodies should carried out the researches by allocating more funds for the agriculture, free health and education attainment research strategical /formations to avoiding unnecessary researches throughout the world. Dr B.R.Ambedkar quotes are clearly guiding forever .For example, “A great man is different from an eminent one in that he is ready to be the servant of the society”. And another quote says, “Men are mortal. So are ideas. An idea needs propagation as much as a plant needs watering. Otherwise both will wither and die.” So each and every one whether they are leader or policy maker or a man of strata ...that is not issue she/he should ready to dedicate herself/himself to the nation and to the universe in any manner. Then only we can solve any SARS/MERS/COVID-2019 PANDEMIC ISSUES IN THE WORLD without harming nature and humanity. Here we must look in to **Malala Yousafzai’s** activism, fighting for human rights and particularly girl’s education, has earned her a Nobel Peace Prize—the youngest recipient in the award’s history. Her famous quote gave ways to solve all the problems in the world i.e., “**One child, one teacher, one book, one pen can change the world.**”

So

“IF ALL HAVE TO BE HAPPY, ALL HAVE TO STAY IN LOVE”

Rev.Fr.Pierre Ceyrac SJ.
